

Cleaning tools for your body

There are important tools that you use to help clean your body. Tools such as your toothbrush, toothpaste, soap, a rag, a towel, and toilet paper, help to remove dirt, germs and other bad things away from your body. When you are clean you are less likely to get sick.

Instructions: Let's help Stephen look for his toothbrush, soap and towel.

Homework: Write what you think Stephen is going to do with his toothbrush, soap and towel.

List some other tools that Stephen can use to clean his body.
