Nestlé Good food, Good life

How our global initiatives support the SDGs

Everything starts with healthier kids

We believe that by helping new generations eat and drink better and move more, we will enhance quality of life and contribute to a healthier future.

Nestlé for Healthier Kids is a global initiative that brings together all our efforts to support parents and caregivers on their journey to raise healthier kids.

From leading research and product formulation to education, innovative nutrition and lifestyle services, our ambition is to help 50 million children lead healthier lives by 2030. To date, Nestlé for Healthier Kids has helped over 8.3 million children across the world.

Investing in young people

Our aim for our global youth initiative, **Nestlé needs YOUth**, is to help 10 million young people around the world have access to economic opportunities by 2030. This global initiative combines and coordinates all our activities that support young people around the world, including the Alliance for YOUth.

In addition to employability, the initiative now also focuses on the next generation of farmers and entrepreneurs across Nestlé's value chain, and seeks to encourage innovation, not least through a challenge on the HENRi@Nestlé open innovation platform.

Water: our most precious resource

Water is essential to life and critical to our business, from the crops grown by our suppliers to the processes we use to manufacture our foods and beverages. That's why it's important we have an integrated, global approach to promoting good water stewardship across our business.

Our global efforts to improve our environmental performance involve stewarding water resources for future generations. We focus on continuing to reduce withdrawals and reuse water in our operations, working with other stakeholders to protect and manage water at a catchment or community level, and helping increase access to safe water and sanitation.

How our commitments support the UN SDGs and their targets

In 2019, we mapped our commitments against the SDG targets. We have identified which of these targets Nestlé is contributing toward through our progress against commitments. Those deemed as high priority for Nestlé are outlined below.

Offering tastier and healthier choices

Our work on offering tastier and healthier choices contributes to SDGs:

| Specific SDG target | Target details |
|---------------------|--|
| 2.1 | By 2030, end hunger and ensure access by all people, in particular the poor and people in vulnerable situations, including infants, to safe, nutritious and sufficient food all year round |
| 2.2 | By 2030, end all forms of malnutrition, including achieving, by 2025, the internationally agreed targets on stunting and wasting in children under 5 years of age, and address the nutritional needs of adolescent girls, pregnant and lactating women and older persons |
| 17.17 | Encourage and promote effective public, public–private and civil society partnerships, building on the experience and resourcing strategies of partnerships |

Inspiring people to lead healthier lives
